Au nom de l'Agence Nigérienne de Promotion de l'électrification en milieu Rural (ANPER), je saisis cette occasion unique pour vous féliciter et également transmettre nos salutations les plus chaleureuses à WAPCOS Limited, pour avoir mené à bien son parcours mouvementé depuis 50 années. Alors qu'il célèbre son jubilé d'or, nous nous associons au travail de pionnier entrepris par WAPCOS en Afrique, y compris au Niger, au cours de ces dernières années.

WAPCOS étend les frontières de l'utilisation de la technologie solaire photovoltaïque (PV) dans les zones rurales du Niger avec des progrès satisfaisants. L'expertise de WAPCOS dans diverses applications d'utilisation finale telles que l'éclairage, le pompage de l'eau, le chargement de batterie et, plus important encore, la production d'électricité, témoigne du rôle de pionnier de votre institution au Niger. L'ANPER est actuellement engagée dans la deuxième phase de l'électrification rurale de 50 villages par le biais de l'énergie solaire et de centrales micro-solaires de 50 kWc dans 10 villages.

Cela tient au mérite de votre leadership inspirant et vos conseils qui ont inspiré un sens aigu de la profession et mis à la disposition du personnel des capacités utiles, dans un cadre dévoué des ingénieurs et du personnel de WAPCOS travaillant au Niger.

Le Gouvernement du Niger continuera à rechercher le large éventail de services de WAPCOS dans toutes ses entreprises futures avec un sentiment renouvelé d'espoir et d'optimisme. Je considère que c'est un moment de fierté et un privilège de faire partie de ces célébrations en cours.

We highly appreciate the dedication and hard work of WAPCOS engineers and experts on our sites and commend the Management of the Company for its superb leadership.
